

# Nutrio® for Vegetables

## SPRAY GUIDE AND APPLICATION

Nutrio® is a microbial-based foliar biofertilizer that offers an inexpensive supplement & a sustainable solution to reduce detrimental effects of chemical fertilizers.

Crop	1/2 Reccommended Rate of inorganic fertilizer (KgNPK)	Time of Application (Days after spraying)		
		First	Second	Third
Pechay	(45-20-20)	10	20	-
Legumes	(21-21-21)	10	20	-
Solenaceous Vegetables	(90-45-45)	15	30	Every 30
Okra	(25-40-49)	15	30	Every 15
Carrot	(63-34-38)	15	30	-
<b>Use Three (3) Nutrio® packets diluted in 200 Liters of water for every hectare</b> <small>*All fertilization rates should be based on soil analysis</small>
